

## Cloud Access Control Solution

Trudian's newly released cloud access control management solution enables simple and efficient precise access. One-touch remote door opening, authorization code sharing, etc. via APP on cell phone, no more physical cards and keys are needed anymore, and access control management is much more simplified yet secured. With multiple advantages in terms of quickness, preciseness, safety, scalability, management efficiency and cost-effectiveness, the solution is ideal for various applications including office, school, hotel and other service premises etc.

## Cloud Access Control Solution

### Cloud AccessControl

Multiple working modes: TCP/IP networking, standalone(offline).Can store user data, support stand-alone operation in disconnected mode;Can carry out local management, support login background settings, manage device parameters;

### Professional Security Software

TrudianApp provides abundant door opening methods, which can be opened by Bluetooth, authorized password and remote one-touch door opening. And you can share a single valid authorization code to visitors.

## Efficient Management of Management Center Software

Controller Management Center software provides secure and convenient access control and personnel management services, allowing the enterprise's general management department to have clear access to the daily work of employees. It also provides easy access to the daily usage of meeting rooms and reception rooms. At the same time, the management center software monitors all the controllers working online. It can be controlled remotely in real time, which is very convenient and safe.

The screenshot displays the 'Search Controller' window with a table of search results and a 'User' configuration window.

ID	SN	IP	Mask	Gateway	PORT	MACAddr	PC IPAddress	Note
1	29374830982	191.897.1.1	255.255.0.0	192.168.1				J01.Lucy—Privileges
